

Define Problem Statements

Customer-perspective problem definition aligned with the AI BlogNest solution.

Issue	15 March 2024	Team ID	6ab4ccd16f290be8a6b460f4
Project Name	aiblognest	Maximum Marks	3 Marks

Define Problem Statements

The template uses the structure: I am (Customer), I'm trying to, But, Because, Which makes me feel. The project materials do not identify a named customer persona, so this is a working project-aligned statement.

Problem Statement	I am	I'm trying to	But	Because	Which makes me feel
PS-1	A blogger / content creator using a blog platform or application.	Create and manage blog content through a simple backend and use AI assistance for generation and summarization.	Content management and AI-assisted workflows may require separate or manual processes.	A unified API can provide authentication, blog CRUD, persistent storage and AI operations in one backend.	That I want a more streamlined way to manage and enhance blog content.

Project Alignment

Problem Area	Relevant Alignment Capability
Account access	User registration, login and JWT-protected routes.
Content management	Create, read, update and delete blog posts.
AI-assisted writing	Gemini-powered AI blog generation from a topic.
Content condensation	AI-powered summarization of supplied blog content.
Persistent data	MongoDB/Mongoose integration documented in the project.

Note: A formal customer interview or validated user-research record was not supplied, so the persona and statement should be treated as a working project artifact.
